BOOKS AND MONOGRAPHS

JOURNAL ARTICLES (REFEREED)

Bradford MA (2008) Behaviour and design of shallow arches of large span as roofing structures under low levels of fire loading, Second International Symposium on Innovative Design of Steel Structures, Hong Kong (December).

in the absence and presence of divalent cations. Geochim.
of Fe(III)-organic ligand complexation in natural waters
Development and application of an ion exchange separation
AJSE), Institution of Engineers Australia, Vol. 8 No.3, pp237-
concrete slabs, Australian Journal of Structural Engineering
hazard and risk-zoning for land use planning Commentary,
of large slow, very slow and extremely slow landslides, Canadian Geotechnical Journal, Vol.45, pp984-1005.
