2009 PUBLICATIONS

With 6 books or research monographs, 4 chapters in books, 121 papers in refereed journals, 117 refereed conference papers, 6 non refereed articles in journals and conference proceedings, 13 completed PhD theses as well as numerous Conference presentations, posters and published abstracts the research publications output of the School of Civil and Environmental Engineering remains at a very high level.

For our extensive Technical Research Reports, and Reports to Industry, please see the Industry & Community Section in this Annual Report.

Book - Scholarly Research

Heidarpour, A, 2009, Steel and Steel-Concrete Composite Structures at Elevated Temperatures: Behaviour of Beams and Beam-to-Column Connections, VDM Verlag, Germany.

Book - Other Research

Attard, MM & Kim, M, 2009, Lateral Buckling of Beams with Shear Deformations - A Hyperelastic Formulation, School of Civil and Environmental Engineering, UNSW, Sydney, Australia.

Book Chapter - Scholarly Research

Journal - Refereed & Scholarly Article

Conferece - Full Paper Referred

Journal - Non Referred Article

Foster, SJ, & Voo, YL. 2009, 'Design of Steel Fiber Reinforced Concrete for Shear', 24th Biennial Conference of the Concrete Institute of Australia, Sydney, Australia, 29th June - 02 July.

Ng, TS, & Foster, SJ, 2009, ‘Development of high Performance Geocell Reinforcement for Concrete Pavements’, 9th International Conference on Concrete Block Paving, Buenos Aires, Argentina, 18 - 21 October 2009.

Conference - Full Paper, Not Refereed

Conference - Abstract Only

Conference - Proceedings Editor

Conference - Presentation, not Published
